**TORONTO, ON, January 25, 2023** – Lithium Ionic Corp. (TSXV: LTH; OTCQB: LTHCF; FRA: H3N) (“**Lithium Ionic**” or the “**Company**”) announces that its Brazilian-based wholly owned subsidiary, MGLIT Empreendimentos Ltda. (“MGLIT”), has entered into a binding share purchase agreement (the “Agreement”) with Exotic Mineração Ltda. (“Exotic”) pursuant to which MGLIT has the option to acquire up to a 100% equity interest in Vale Do Lítio Mineração Ltda. (“Vale Lítio”). Vale Lítio has a 100% beneficial ownership interest in three lithium mining claims in Minas Gerais, Brazil that cover a total of 3,140 hectares (the “Vale Claims”).

The first of three claims cover 1,738 hectares and is located adjacent to the recently acquired Galvani target. Spodumene-rich pegmatites have already been identified in old workings and outcrops at this property. The other two claims, covering 879 hectares and 523 hectares, are located in the northeastern portion of the prospective Araçuaí-Itinga Pegmatite region (See Figure 1).

Blake Hylands, P. Geo., CEO of Lithium Ionic, commented, “We are very pleased with this agreement, which is in line with our strategy of acquiring and consolidating strategic lithium targets in this prospective lithium-producing region.”
